Paine's Celery Compound

The Celebrated Nerve Vitalizer and Tonic.

No other tonic in the world is like Paine's Celery Compound; no other remedy takes so simple and scientific a way to perform its wonders as this remedy and vitalizer discovered by the eminent Prof. Edward E. Phelps, of Dartmouth University.

It gives your system nature's nerve food—Celery—and through the inner nerves gives instant power and vigor to every organ and function of the body.

"About two years ago my general health began to decline. I lost my appetite and became nervous and irritable. Happening to read an advertisement for Paine's Celery Compound, I decided to try it. The FIRST BOTTLE HELPED ME, and I am now in perfect health."—Miss Claudia Karr, Pittsburg, Pa.

No other remedy purifies so gently and so quickly. Paine's Celery Compound is the one remedy that purifies without purging or weakening the system in any way.

SEA WALLS AT WAIKIKI

Property Owners Intend to Contest Ruling of Territory.

Waikiki property-owners are in arms on account of the letters sent out by the Attorney-General's office yesterday, ordering some of them to remove or change their sea-walls in accordance with the right of way claimed by the Government.

Twenty-two property owners were notified yesterday of the government's action, and these owners according to Attorney-General Andrews are divided into three classes.

The first-class of walls are those which were built some time ago for the purpose of protecting the property from the waves. These walls are beyond the boundaries of the property of those who built them, but are on land.

The second-class of walls are those which have been built within the patent boundaries of the owner, but which are in the water.

The third-class includes those walls which have been built deliberately in the water and beyond the patent boundaries of the owners. These are the ones which will have to come down.

The Territory is not after the first two classes of property owners as much as the third-class, but it is here where the trouble ensues, for some of those whom the Territory places in the latter class do not consider that they belong there. Among those who have received notification are Seelye Shaw, Judge Wilder, A. M. Brown, the Aquarium and J. A. McCandless.

Mr. McCandless when seen yesterday expressed his surprise at the attitude of the Territory for their action in the matter. "When I built my sea-wall," he said, "and when some of my neighbors built theirs it was to protect and save our homes. Since doing so the ocean has encroached and eaten away the land on either side of my property. No line for building sea-walls has ever been established by the government and our titles give us possession to the sea. If we move our walls now, what assurance can the government give us that the next Attorney General who comes along would not order us to move them again."

"Some of the notices sent out say, 'you have encroached on the sea, but if you give us a perpetual right to walk over the walls we will let your wall stand.'"

"I believe there is an old law which gives people the right to walk along the walls, but I know that I have never refused any one that right, nor have any of my neighbors so far as I know."

And so it stands. Property-owners do not intend to comply with the rulings of the Attorney-General's department and a number of them including Mr. McCandless have engaged Alex. Robertson to look after their interests, and within a day or so the rest will probably obtain legal advice and endeavor to reach some kind of an agreement with the Territory which will be satisfactory to both sides.

Comparisons Are Odious.

Teacher—I am sorry you think of removing your son. I should advise you to let him stay at school for another year. Why, I was 18 before I left school.

Parent—Well, of course, some folks are naturally duller than others.—Ally Sloper.

Not a Music Lover.

"I see you advertise piano covers," said the man with a squint.

"Yes, we have all kinds," said the clerk.

"Let me look at some that are hermetically sealed, then."—Yonkers Statesman.

Whales are said to sometimes attain an age of from 300 to 400 years. The age is ascertained by the size and number of layers of the whalebone, which increase yearly.

MISS CLAUDIA KARR.

The First Bottle of Paine's Celery Compound Helped Her—Brought Back Perfect Health.

TAXES SHOW AN INCREASE

Ten Per Cent More for Half Year Than in 1904.

So far, tax returns at the Collector's office have been very good, the collections for the first half-year amounting to ten per cent, more than those of last year, as the following tables will show:

TO JUNE 30, 1905.	
Honolulu	\$8,408.76
Ewa	45,554.29
Waianae	3,011.30
Waialua	10,720.40
Koolauloa	4,371.20
Koolapoko	4,405.52
\$154,471.57	

TO JUNE 30, 1904.	
Honolulu	\$9,945.81
Ewa	28,847.20
Waianae	3,068.88
Waialua	11,030.01
Koolauloa	2,478.05
Koolapoko	4,604.41
\$141,974.36	

The taxation values of Oahu this year show an increase of about \$1,200,000 in personal property over last year, while the real estate valuations show a decrease of about half a million. The increase is due largely to increase in assessments of plantation property, the high price of sugar having had a good deal to do with the advances. Real estate in Honolulu is assessed at a million less.

The figures in the Tax Office, however, show that as compared with five years ago there is a very substantial increase, aggregating ten millions in both real and personal property, of which six and a-half millions are personal. The high water mark was reached in 1903, since which there has been a slight drop. The following table, compiled from figures secured from Tax Collector Holt, shows the results of assessments of the past five years:

1901.			
Districts	Real Estate	Personal	Total
Honolulu	\$26,403,077	\$13,363,407	\$39,766,484

GARBAGE PAYROLLS

(Continued from Page 1.)
REPORT TO BE COMPLETE.

That payroll is a public record in the County Treasurer's office, and may be seen by anyone who cares to take the trouble of going to look at it. In connection with this July payroll, and the investigation of the whole matter now going forward, some interesting figures have developed. For instance, the Territory worked thirty-five men in the Garbage Department in June, working their full time, including eight men at the crematory, and the total cost was approximately \$3000, with about \$1000 in realizations. The county has done precisely the same work with 24 half men, including four at the dumps, at a cost of \$2000, and the realizations have footed up \$761.15.

night when he would have his report ready, but promised that it would be a most full and complete exposition of the case when he did hand it in.

WILL NOT ORDER SAM HOME.

"I will not order Sam Johnson to come back from San Francisco," said Acting Governor Atkinson yesterday. "So far as I can see, there is no occasion for anything of the kind. I do not think there has been any graft in the road or garbage departments."

"Deputy Territorial Auditor Meyers has been through all the payrolls in his department, and finds absolutely nothing wrong with them."

MR. WHITE EXPLAINS.

"The bad feature of the payroll system followed in the Garbage Department," said Clarence White yesterday. "Consistent in this, that a man who worked for a few days only got his Sunday credited to him, as well as the man who had worked a full month. Now, while it made no difference when a man worked a full month, it might have made a difference to short time men. And it is very probable that this system will be changed, and that hereafter the men will work by the day, and be paid for the days that they work. I have written to Sam Johnson, informing him of what has been done, and also telling him that it is probable that a new system will be adopted."

"I want to say, however, that it is not at all likely that the garbage men, in signing payrolls, would fail to look at what they were signing because they were hurried in the matter. On the contrary, it is astonishing to see what they do look at. It has happened that they have claimed more than the payroll showed them to have earned. In such cases, the men were told to stand aside until the matter had been investigated. And where mistakes have been made, they have, of course, been rectified."

"I think it is possible that Sam had an understanding with his men that they were to work half shifts, when it became plain that the county would not have money enough to keep the whole force at work on full time. I do not know this, but it seems probable that he told them he could not keep them all going all the time, and that they ought to take half-time instead of quitting altogether, in the hope that there would presently be more money, and work for all. In other words, they probably came to the conclusion that half a loaf was better than no bread. "Also, men who have been discharged might cherish grudges and make groundless charges."

Does Your Carriage Need Repair?

Does your carriage need repair? Does your buggy need painting? If we have hit the mark in either case send the vehicle along to us and we will do the best of jobs on it.

We have fully equipped premises on Queen Street, between Fort and Alakea Streets, and are in shape to do first-class repairing, painting, etc.
